

Draw lines to match the shape to its name and basic properties.

You will need to fill in some gaps!

I can name 2D shapes 😊 I can name some properties of 2D shapes 😊

	circle	__ edges __ corners
	pentagon	6 edges 6 corners
		5 edges 5 corners
	hexagon	4 edges 4 corners All edges are the same length.
	oblong	1 side 0 corners
	triangle	4 edges 4 corners 2 edges are the same length
