I solve problems involving 2D shapes.

★ ★ ★ I can recognise 2D shapes and select the correct shape to fit in a puzzle.

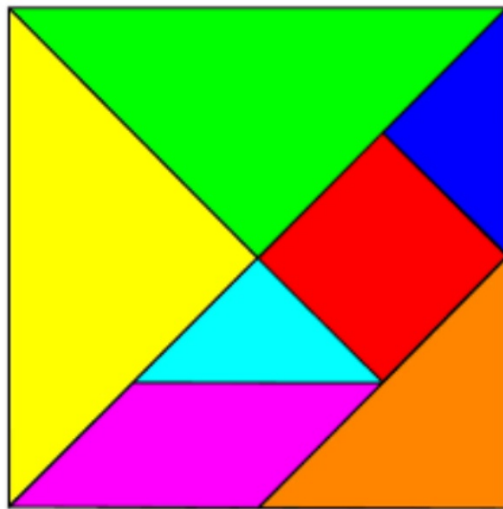

★ ★ I can solve problems using trial and error and **perseverance**.

★ I know the names of different shapes and cut them out carefully.

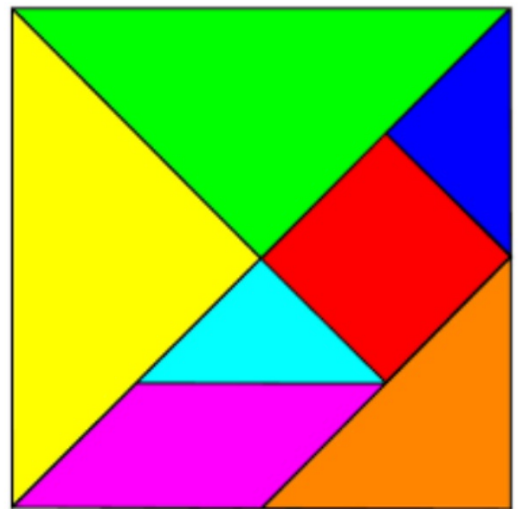

Here is a tangram. What shapes can you see?

A **tangram** is an ancient Chinese puzzle where you make pictures using mathematical shapes.

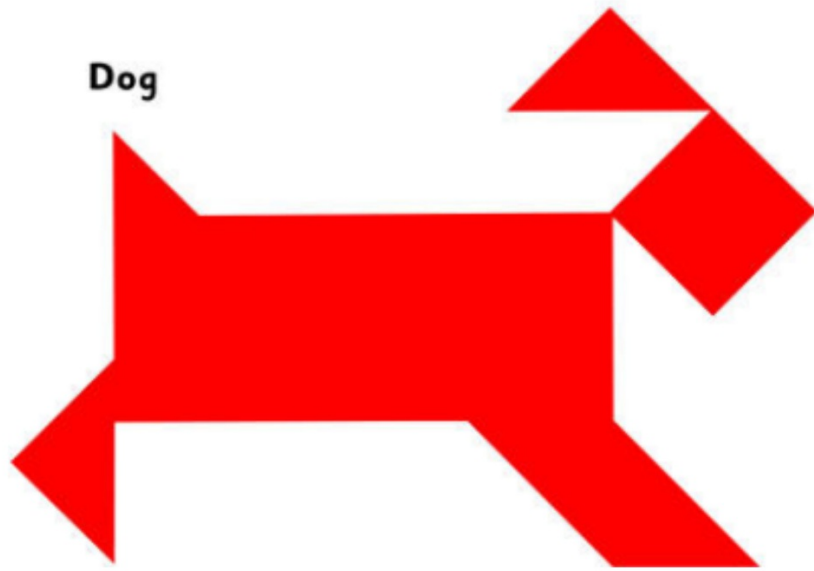

Step 1
Carefully cut out
your tangram
pieces.

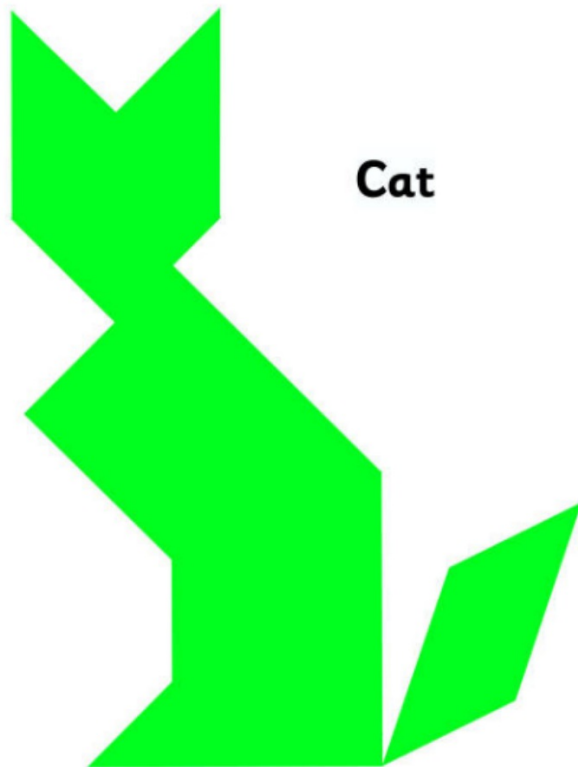

Step 2:
See if you can arrange yo
pieces on your page to ma
the picture on the next slid

Dog

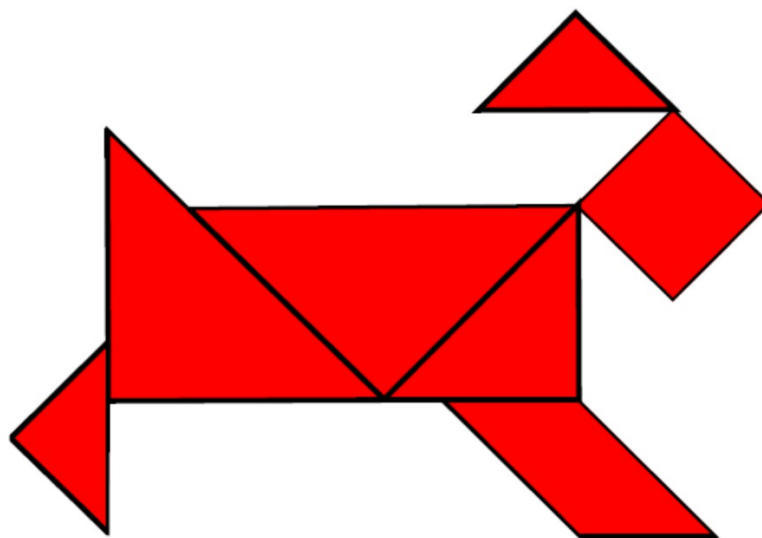

Try this one!

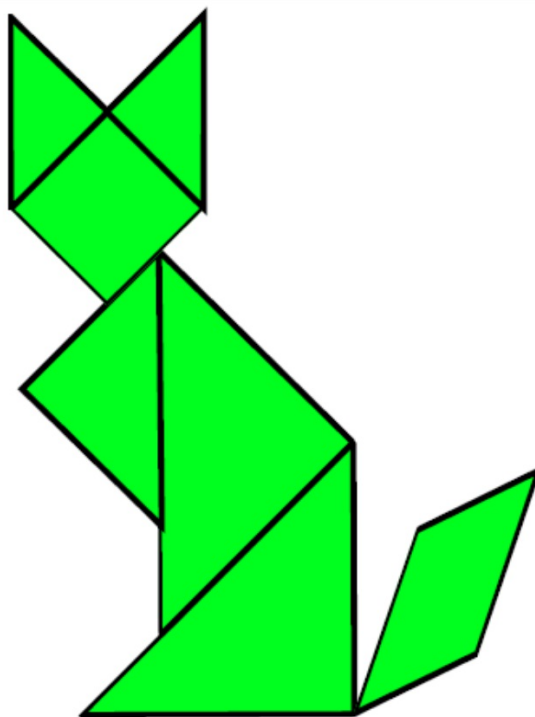

This is a tricky one

Solution:

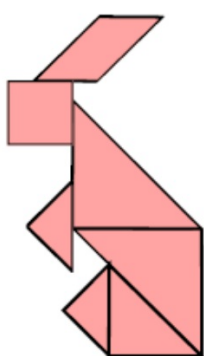

dog

Solution:

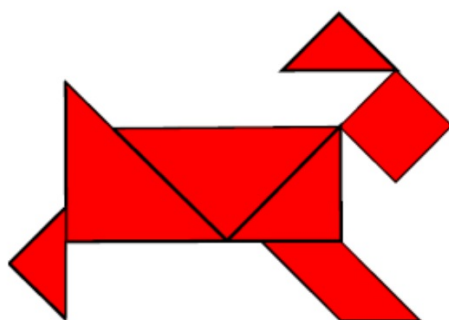

cat

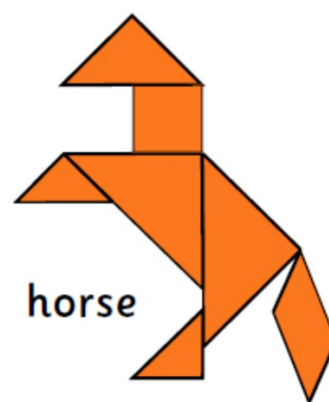

Here are some more for you to try if you wish!

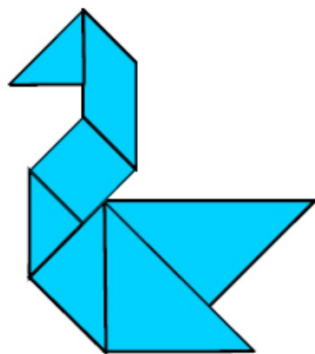

rabbit

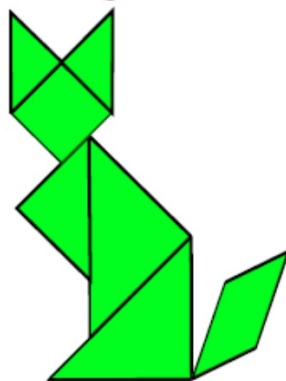

dog

horse

swan

cat

fish

**We are learning to solve
problem using 2D shapes**
